

COUNTRY[®] STOVES

A LIFETIME OF WARMTH

Attn: Country Stoves Hearth Retailers

Selkirk Direct-Temp[™] has been added as an approved venting option on Country Stoves direct vent gas products.

All owners manuals have Simpson Dura Vent[™] part numbers listed. It is required that a Simpson Dura Vent[™] cross reference sheet be used when selecting your Selkirk pipe. If a Simpson Dura Vent[™] part # does not have a Selkirk Direct-Temp[™] part # contact Selkirk for instructions.
